

# Joshua Himmens

[joshua@himmens.com](mailto:joshua@himmens.com) | 587-434-0118 | <https://himmens.com>

**Undergraduate Engineering Physics Student** at The University of British Columbia

**92% (A+)** Average | **English** (Native), **French** (Working Knowledge)

## Technical/Research Experience

---

### ATLAS Deep

### Learning Research

### Student

TRIUMF

05/2024 - Present

[himmens.com/triumf](https://himmens.com/triumf)

ATLAS detects particles from the Large Hadron Collider colliding at 99.999999% the speed of light to explore the bounds of physics.

- Developed panoptic segmentation models for the ATLAS detector using the PointNet ML framework with Wandb, TensorFlow, Keras.
- Used CERN's grid computing to parallelize compute across thousands of nodes.
- Worked independently to develop models using cutting edge transfer learning approaches.

### Command and Data Handling (CDH) Lead and Firmware Developer

UBC Orbit Satellite

Team

10/2023 - Present

[himmens.com/orbit](https://himmens.com/orbit)

ALEASAT is an earth observation cubesat supported by the European Space Agency and UBC.

- Led the CDH team to develop software to meet mission and testing objectives from ESA (European Space Agency) for the ALEASAT project.
- Managed a team of 10 firmware developers.
- Developed mission testing, function testing, and acceptance testing procedures.
- Programmed device drivers, electrical ground support equipment (EGSE).
- Developed the ALEASAT Avionics Test Bench (FlatSat).

## Publications and Presentations

---

Presented **Developing Machine Learning Techniques for Particle Flow in the ATLAS Experiment** at the Canadian Astroparticle Physics Summer Student Talks Competition (CASST 2024), where I **placed 2nd** of 44 presentations.

Co-author of **Implementing Low-Cost ADCS for 1U CubeSat: Insights from ALEASAT** to be presented at the International Aeronautical Conference (IAC) in October 2024.

Presented **3D Particle Flow in the ATLAS Calorimeter: How to Train Your Model**, a speed-talk, at the 2024 TRIUMF Science Week

Presented **ALEASAT ESA "Fly Your Satellite!" Training Week Presentation** at the European Space Agency's ESEC-GALAXIA (Transinne Belgium) in 2024 as part of the "Fly Your Satellite 4!" program.

## Technical Skills

---

**Machine Learning** | Experienced using TensorFlow, Keras, PointNet, Weights and Biases (wandb) for model development.

**Embedded Programming** | Experienced with FreeRTOS on TMS570 and RP2040.

**Quantum Computing** | Used Qiskit to simulate quantum algorithms.

## Awards

---

**Erich Vogt First Year Summer Research Experience (FYSRE) Award** | 2024

Awarded to promising students in physics for a 4 month research placement.

**Alberta Centennial Award and Alberta Premier's Citizenship Award** | 2023

Awarded for outstanding community service. Value: \$2000

**Calgary Flames Foundation Community Involvement Scholarship** | 2023

Awarded for community involvement. Value: \$2005

**Julia Turnbull Leadership Award for exceptional community service** | 2023

Awarded for exceptional community service. Value: \$1000

**Ted Rogers Entrance Scholarship** | 2023

Awarded for academic achievement. Value: \$2000

**Tom Lawson award for embodying the spirit of Canadian debate** | 2023

Required a vote of the student delegates at the Canadian National Debate Seminar.

## Advocacy and Leadership

---

### Curriculum and Advocacy Director

UBC Engineering  
Undergraduate  
Society  
2024 - Present

- Worked with the faculty and the undergraduate society to develop multi-year plans for coop-related advocacy.
- Advocated for transparency in coop fee use in line with standards at other institutions.

### Advisory Team Member

Child Rights Connect  
2021 - 2023

- Provided guidance to UN delegations on communication strategies for high-level rights goals.
- Presented to governments and consulted on international initiatives to support the UN Convention on the Rights of the Child.

## Experiences

---

- **"Quantum School for Young Students"** participant at the University of Waterloo and Institute for Quantum Computing.
- **"Introduction to Quantum Computing"** participant, an 8-month course on quantum computing using IBM's quantum infrastructure.
- **Scientific Computing with Python certification** (300 hours).
